perles d'aphrodite

is one of our most luxurious outfits. Shows the elegant side of the lady wearing it, since it's enriched with pearls and satin fabric guided by a spheroid black skirt!

la parisienne

is our classical outfit inspired by the french impressions from the 20s. This vintage look takes us to an old journey where women didn't wear pants, the "Jupe-Culottes" were created in Paris to allow women to ride bicycles. This elegant camouflage creates a certain confidence & poise.
